

DUETS ENGRAVING STOCK AIMS TO UNLOCK VALUE LASER XT BRINGS INDOOR, OUTDOOR PERFORMANCE

Today's professionals seek the highest quality engraving stocks at a fair price, and in order for their businesses to thrive, that stock needs to meet market demands and arrive quickly.

Gemini Sign Products set out to meet those demands without compromise with the debut of its Duets engraving stock lineup, which features Laser XT, a professional-grade substrate suited to both indoor and outdoor application.

Like other products in the Duets line, Laser XT has become a go-to engraving stock, delivering a wide range of ability alongside unmatched Gemini quality.

THE GO-TO OPTION

With the flexibility to fulfill indoor or outdoor applications, and the availability of a variety of color and finish options, Laser XT has the quality and durability to cover a broad range of jobs.

The micro-surfaced, impact-modified acrylic is available in two- and three-ply constructions, and matte, gloss or brushed-metal finishes make it an ideal choice for interior and exterior branding applications, as well as wayfinding, awards or recognition.

PERFORMANCE AT HAND

After more than a half-century in the business, Gemini understands that no engraving stock can deliver value to shop owners if it is not accessible to those that need it.

As a result, more than 20 stocking locations provide coast-to-coast coverage of Laser XT, supplying one-day delivery for most of the U.S. and ensuring reliable access to the lineup.

QUALITY WITHOUT EXCEPTION

Laser XT features impact-modified acrylic that is manufactured in Gemini's Cannon Falls, Minn.-based facility, a state-of-the-art, Class-10,000 cleanroom to ensure engraving performance, color, finish and thickness are consistent and of the highest quality.

Duets by Gemini products are continuously monitored and tested for quality and engraving performance.

Formulated to deliver performance and value, the Laser XT impact-modified acrylic boasts the following qualities:

- UV-stable structure for indoor or outdoor durability
- Adhesive backing available
- Sheer, score or drill to meet need
- Ideal for hot-stamp or silk-screen applications
- Heat bendable

To request free 6-by-6-inch test samples at no charge, or to learn more about the Laser XT lineup, visit DuetsByGemini.com, or call 1-800-548-3356.
